3 **THE OBJECTIVES OF THE POLICY ARE AS FOLLOWS:**

- (a) To comply with the legislative requirements;
- (b) Manage interest rate and credit risk exposure;
- (c) Maintain debt within specified limits and ensure adequate provision for the repayment of debt;
- (d) To ensure compliance with all Legislation and Council policy governing borrowing of funds.

#### 4 **APPROVAL AND EFFECTIVE DATE**

The policy will be effective as from 1 July 2018.

## 5. **POLICY AMENDMENT**

The Accounting Officer must–

- (a) at least annually review the implementation of this Policy; and
- (b) when the AO considers it necessary, submit proposals for the amendment of this Policy to the Council.

The review of this policy and any amendment should be made with due consideration and in conjunction with the annual review of the budget related policies as prescribed in the Municipal Budget and Reporting Regulations, 2008.

## 6      **RELATIONSHIP WITH OTHER POLICIES**

This policy needs to be read in conjunction with other relevant adopted policies of the municipality,

including the following:

- (a) Delegation of Powers;
- (b) Accounting Policy;
- (c) Cash Management and Investment Policy
- (d) Long Term Financial Plan Policy;
- (e) Budget Implementation and Monitoring Policy;

## 7 SCOPE OF THE POLICY

**Risk Management:** The need to manage interest rate risk, credit risk exposure and to maintain debt within specified limits is the foremost objective of the borrowing policy. To attain this objective, diversification is required to ensure that the Chief Financial Officer prudently manages interest rate and credit risk exposure.

**Cost of Borrowings:** The borrowings should be structured to obtain the lowest possible interest rate, on the most advantageous terms and conditions, taking cognisance of borrowing risk constraints, infrastructure needs and the borrowing limits determined by Legislation.

**Prudence:** Borrowings shall be made with care, skill, prudence and diligence. The standard of prudence to be used shall be the “prudent person” standard and shall be applied in the context of managing overall debt.

Officials are required to adhere to:

- a) written procedures and these guidelines
- b) exercise due diligence
- c) prepare all reports timeously
- d) ensure strict compliance with all Legislation and Council policy

## **8 . CONSIDERATIONS**

The Municipality from time to time, will use certain of its surplus funds to fund its Capital programme. The utilisation of surplus funds enables the Municipality to reduce its reliance on external debt financing, thereby allowing it to borrow only funds from external sources when favourable market conditions prevail.

### **8.1 Factors to be considered when borrowing:**

- the type and extent of benefits to be obtained from the borrowing.
- the length of time the benefits will be received.
- the beneficiaries of the acquisition or development.
- the impact of interest and redemption payments on both current and forecasted property tax income.
- the current and future capacity of the property tax base to pay for borrowings and the rate of growth of the property tax base.
- likely movements in interest rates for variable rate borrowings.
- other current and projected sources of funds.
- competing demands for funds.
- timing of money market interest rate movements and the long term rates on the interest rate curve.

The Municipality will, in general, seek to minimise its dependence on borrowings in order to minimise future revenue committed to debt servicing and redemption charges.

The Municipality may only borrow funds, in terms of the Municipal Finance Management Act, for the purpose of acquiring assets, improving facilities or infrastructure to provide service delivery.

### **8.2 Potential lenders include:**

The Development Bank of Southern Africa  
Registered Banks in Southern Africa

## **9. DEBT REPAYMENT PERIOD**

Whilst the period for which loan debt may be received will vary from time to time according to the requirements of the various Lenders, presently the typical debt repayment period for loans in the current economic climate is between 10 to 15 years.

Cognisance is taken of the useful lives of the underlying assets to be financed by the debt, and, moreover, careful consideration is taken of the interest rates on the interest yield curve. Should it be established that it is cost effective to borrow the funds on a shorter duration (as opposed to the life of the asset) as indicated by the interest yield curve, the loan will be negotiated to optimise the most favourable and cost effective benefit to the Municipality.

## **10 SECURITY**

The Municipal Finance Management Act provides that the Municipality may provide security for any of its debt obligations, including the giving of a lien, pledging, mortgaging or ceding an asset, or giving any other form of collateral. It may cede as security any category of revenue or rights of future revenue. Some Lenders may require the Municipality to agree to restrictions on debt that the Municipality may incur in future until the secured debt is settled.

## **11 OVERDRAFT**

Merafong Municipality has a bank overdraft facility. However, due to its sound financial position, this facility is not utilised.

## **12      SHORT TERM DEBT**

The Municipal Finance Management Act provides that the Municipality may incur short term debt only when necessary to bridge shortfalls within a financial year during which the debt is incurred, in expectation of specific and realistic anticipated income to be received within that financial year; or capital needs within a financial year, to be repaid from specific funds to be received from enforceable allocations or long term debt commitments.

The Municipality must pay off short term debt within the same financial year and may not renew or refinance its short term debt. The Municipality may, in terms of the Municipal Finance Management Act, incur short term debt only if the Chief Financial Officer has made a prior written finding that the debt is either within prudential limits on short term debt as previously approved by Municipality, or is necessary due to an emergency that could not reasonably have been foreseen and cannot await Council approval.

The Merafong Municipality is in the fortunate position that due to its sound financial position it is not necessary to raise any short term loans.

## **13 DISCLOSURE**

Any official involved in the securing of loans by the Municipality must, when interacting with a prospective lender or when preparing documentation for consideration by a prospective Investor disclose all relevant information that may be requested or that may be material to the decision of the prospective Lender or Investor. Reasonable care must be taken to ensure the accuracy of any information disclosed. Whilst this is a standard and acceptable business practice, it is also in compliance with section 49 of the Municipal Finance Management Act.

## **14 APPROVAL OF LOANS BY THE MUNICIPALITY**

Section 46 of the Municipal Finance Management Act stipulates that the Municipality may incur long-term debt only if a resolution of the Council, signed by the mayor, has approved the debt agreement and the Accounting Officer has signed the agreement or other document which acknowledges the debt. At least 21 days prior to the meeting of the Council at which approval for the debt is to be considered, the Municipality must make public an information statement setting out particulars of the proposed debt, including the amount of the proposed debt, the purposes for which the debt is to be incurred and particulars of any security to be provided. The Public, the National Treasury and Provincial Treasury must be invited to submit written comments or representations to the council in respect of the proposed debt. A copy of the information statement must be submitted to Council at least 21 days prior to the meeting to discuss the proposed loan, together with particulars of –

- i. the essential repayment terms, including the anticipated debt repayment schedule; and
- ii. the anticipated total cost in connection with such debt over the repayment period.

## **15. PROVISION FOR REDEMPTION OF LOANS**

Merafong Municipality may borrow from Institutions and set up sinking funds to facilitate loan repayments, especially when the repayment is to be met by a bullet payment on the maturity date of the loan. These sinking funds may also be invested directly with the Lender's Bank. The maturity date and accumulated value of such investment must coincide with the maturity date and amount of the intended loan that is to be repaid. Use can also be made of guaranteed endowment policies to facilitate the payment on maturity date.

## **16 NON-REPAYMENT OR NON-SERVICING OF LOAN**

Merafong Municipality must honour all its loan obligations timeously. Failure to effect prompt payment will adversely affect the raising of future loans at favourable costs of borrowing. In addition to the timeous payment of the loans, the Municipality must adhere to the covenants stipulated in the loan agreements.

## **17. PROHIBITED BORROWING PRACTICES**

In the past some Municipalities have borrowed funds with the sole purpose of investing them to earn a return. The motive was clearly speculative. The cost of debt is almost always more expensive than the return that the Municipality can derive by investing in permitted investments. Consequently, as a principle, Merafong Municipality does not borrow for investment purposes, but depending on the shape of the interest yield curve may borrow in advance of its capital cash flow needs in a given financial year to take advantage of an inverse interest yield curve. Foreign Borrowing is permitted in terms of section 47 of the Municipal Finance Management Act, whereby the debt is denominated in Rand and is not indexed to, or affected by, fluctuations in the value of the Rand against any foreign currency.

## **18. INTERNAL CONTROL**

The internal control procedures involve Internal Audit and Performance Management, and the Auditor General reviewing and testing the systems of the Finance Department on a regular basis. In order to prevent losses arising from fraud, misrepresentations, error, conflict of interest or imprudent action, a system of internal controls governs the administration and management of the portfolio.

Controls deemed most important include:-

Control of collusion, separation of duties.

Custodial safekeeping of loan agreements and contracts.

Clear delegation of duties.

Checking and verification by senior officials of all transactions.

Documentation of transactions and repayments.

Code of ethics and standards.

Electronic Funds Transfer limits and a detailed procedure manual for the system.

## **19 NATIONAL TREASURY REPORTING AND MONITORING REQUIREMENTS**

The Municipality submits numerous returns to National Treasury. It is mainly coordinated by the Finance Department. One such report deals with the Municipality's external interest paid each month. Another return, prepared on a quarterly basis, requires the Municipality to itemise all its external borrowings for the quarter ended.

## **20 OTHER REPORTING AND MONITORING REQUIREMENTS**

Regular reporting mechanisms are in place in order to access the borrowings portfolio and to ensure compliance with policy objectives, guidelines and applicable laws.

Quarterly activities:

National Treasury Borrowings return

General:-

Report actual borrowings (in compliance with Section 71 of the Municipal Finance Management Act) to the mayor and Provincial Treasury

Annually:-

Preparation of Annual Budget

Preparation of Annual Cash Flow Forecast

Preparation of Annual Financial Statements

Confirmation of Lender balances at financial year end obtaining written certification of loan balances at year end

Completion of credit rating questionnaire

Regular reviews by Auditor General

## **21 APPROVAL**

21.1 Once Council approves the loan, the AO has to enter into an agreement with the recommended financial institution on behalf of Council. The Chief Financial Officer must ensure that the terms and conditions are as originally agreed before the Council is committed;

21.2 All municipal loan commitments must be recorded in a Loans Register reflecting at a minimum the:

21.2.8 Installments (capital and interest);

21.2.9 Due dates (quarterly / half-yearly / yearly);

21.2.10 Security (if any);

21.2.11 Final redemption date;

21.2.12 Opening balance at the beginning of the financial year;

21.2.13 Amounts received during the financial year;

21.2.14 Capital amounts redeemed during the financial year; and

21.2.15 Closing balance at the end of the financial year.

21.3 Sufficient provision must be made in the budget to depreciate assets linked to the loan.

## **22 DOCUMENTS TO BE KEPT ON RECORD**

22.1 The following loan documentation and certificates, at a minimum, must be safeguarded at all times:

- 22.1.1 Loan agreements;
- 22.1.2 Any applicable security agreements;
- 22.1.3 Copy of annual loans register;
- 22.1.4 Signed copies of monthly reconciliations;
- 22.1.5 Copies of all repayments made;
- 22.1.6 Copies of amortization schedules;
- 22.1.7 Copies of quarterly National Treasury returns.

## **23 POLICY REVIEW**

The CFO will for the purposes of ensuring that this policy is aligned to the legislation, consider if and when necessary to amend the policy. In the event of the policy not being amended during the budget process, the approved policy will remain applicable.
